

## Fees now include new rate of GST

On 1 October 2010 the rate of tax to pay on goods and services (GST) in New Zealand increases from 12.5% to 15%. As a result, the majority of our fees will increase from 1 October.

The fees shown on this website now have been updated to include the new rate of GST and the next time you use an online service, you will be charged the new fees.
